### About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the Insync Global Quality Equity Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms), contained in the Insync Global Quality Equity Fund Reference Guide ("Reference Guide"), each of which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to persons receiving this PDS in Australia and New Zealand (electronically or otherwise). New Zealand investors must read the Insync Global Quality Equity Fund New Zealand Investor Information Sheet before investing in the Fund. All references to dollars or "\$" in this PDS are to Australian dollars.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Insync Funds Management Pty Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

## The Investment Manager

### Insync Funds Management Pty Ltd

Established in July 2009 Insync Funds Management Pty Ltd ("Insync") is a global equity specialist based in Sydney, Australia. Key executives own equity in the business and co-invest in the Fund alongside other investors.

Insync believes that investing in a concentrated portfolio of high quality companies with a good long term growth potential will lead to superior returns over time. They do this through stock selection from a select pool of global companies which they consider exceptional and benefitting from global megatrends.

Insync's focus on seeking quality businesses has driven the decision to build an investment team with individuals who have investment skills and real business experience. Insync believe that a team that combines these skills will lead to better investment decisions.

# 2. How the Insync Global Quality Equity Fund works

The Fund is a class of the Insync Global Titans Fund ARSN 165 786 390, a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Class when they invest. In general, each unit represents an equal interest in the assets of the Class subject to liabilities; however, it does not give investors an interest in any particular asset of the Class.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

## Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$10,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Insync Global Quality Equity Fund  
Mainstream Fund Services Pty Ltd  
GPO Box 4968  
Sydney NSW 2001

Please note that cash cannot be accepted.

Alternatively complete the online application available at [www.insyncfm.com.au](http://www.insyncfm.com.au).

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.20%.

The Application Price will vary as the market value of assets in the Class rises or falls.

## Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$1,000, or \$100 per month by using the regular savings plan.

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Insync Global Quality Equity Fund New Zealand Investor Information Sheet).

## Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Insync Global Quality Equity Fund  
Mainstream Fund Services Pty Ltd  
GPO Box 4968  
Sydney NSW 2001

Or sending it by fax to +61 2 9251 3525

The minimum withdrawal amount is \$1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 10 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 180 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.20%.

The Withdrawal Price will vary as the market value of assets in the Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Class falls below \$5,000 as a result of processing your withdrawal request. In certain circumstances, for example, where there is a circumstance outside its control which it considers impacts on its ability to properly or fairly calculate unit price or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can suspend withdrawal processing and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

## 3. Benefits of investing in the Insync Global Quality Equity Fund

### Vision

Insync believes that investing in a concentrated portfolio of high quality companies with good long term growth potential will lead to superior returns over time. They do this through stock selection from a select pool of global companies which they consider are exceptional and benefitting from global megatrends.

## Managing over a full investment cycle

The Insync global quality strategy invests in businesses which Insync considers exceptional; businesses with high and persistent return on capital which typically generate significant amounts of free cash flow. The strategy seeks to generate attractive long-term absolute and relative returns with good potential upside whilst providing defensive qualities during downturns.

### Growing your wealth

Insync's Global Quality Equity Fund is designed to grow your wealth through a quality and valuation-based approach to investing in large, liquid companies with exceptional business strength. Insync particularly likes less cyclical, resilient companies that it considers can consistently allocate capital efficiently in profitable growth opportunities and utilise the remaining cash flow to grow their dividends and/or buyback their shares.

### The central belief

Insync's investment approach is underpinned by the following philosophies:

- only a small number of companies are truly exceptional with persistently high returns on invested capital and consistent growth in dividends and/or share buyback,
- high quality stocks outperform over time, and
- exceptional companies are often mispriced as the market underestimates the duration of their competitive advantage.

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

### Investment risk

This is the risk that the value of an investment may change or become more volatile, potentially causing a reduction in the value of the Fund and increasing its volatility. This may be because, amongst many other things, there are changes in government policies, the Investment Manager's operations or management, the business environment or in perceptions of the risk of an investment.

### Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that the country's credit rating is downgraded, which reduces the nation's perceived creditworthiness, the purchasing power of currency changes (either through inflation or deflation), and/or other market-wide factors, like economic growth or the unemployment rate, deteriorate, which can cause a reduction in the value of the Fund and increase its volatility.

### International risk

The principal investments will be in shares of companies listed on international stock exchanges (including the US, Europe and Asia).

Investing internationally in one of the major asset categories will include all the risks associated with that asset class, but will also include risks not associated with holding Australian investments such as currency risk. This may be because, amongst many other things, there are adverse changes in economic, financial, technological, political, environmental or legal conditions, natural and man-made disasters, conflicts and shifts in market sentiment.

While the Fund's investments will be focused on developed markets such as the US, the Eurozone and developed Asia, at times investments may be made in less developed countries. These markets are generally less sophisticated with poorer reporting, governance and regulatory frameworks, and greater political, legal and other risks.

### Portfolio concentration risk

The Fund is a relatively concentrated portfolio of generally between 20 – 40 companies. On some occasions, the Fund could hold a substantial position in a particular company. As a consequence the Fund's return may experience greater volatility than the broad market indices.

### Currency and financial instruments risk

The offshore investments held in the Fund are exposed to risks associated with movements in foreign exchange rates.

The currency exposure within the Fund is actively managed from an Australian investor's perspective. This involves financial instruments designed to offset changes in currencies, usually using forward contracts or listed options.

Insync will actively hedge the portfolio between 0% - 100%. The level of hedging back to the Australian dollar will depend on Insync's expectation of future currency exchange rate movements. Insync does not regularly trade currencies trying to profit from short term moves, but rather may seek to hedge the portfolio back to Australian dollars when exchange rates get to levels considered by Insync to be more favourable or where Insync considers that there is a significant event risk that the exchange rate exposure has the potential to have a material negative impact on the portfolio.

Hedging is not perfect. It is not always successful, is not always used to offset all Fund currency risk, and is sometimes not cost effective or practical to use.

In spite of some potential hedging from time to time, currency risk remains and currency movements will have both a positive and negative impact on the Fund.

NZ investor warning: The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

### Interest rate risk

This is the risk that changes in interest rates can have a negative impact on certain investment values or returns.

Reasons for interest rates changes are many and include variations in inflation, economic activity and Reserve Bank of Australia (RBA) policies. Higher interest rates can result in declines in the value of investments, including equities products like those held by the Fund.

### Liquidity risk

This is the risk that your withdrawal requests cannot be met when you expect. Because cash is paid to your account when you withdraw, investments of the Fund may need to be sold to pay you. Depending on factors such as the state of the markets, selling investments is not always possible, practicable or consistent with the best interests of investors.

### Fund structure risk

This is the risk associated with having someone invest for you.

Risks associated with investing in the Fund include that the Fund could be closed and your money returned to you at the prevailing valuations at that time, the Responsible Entity or the Investment Manager could be replaced or the manager of the underlying funds could change. Key people can also change (for example key individuals involved in managing the Fund or underlying funds).

There is also the risk that someone involved with your investment (even remotely) does not meet their obligations or perform as expected, assets may be lost, not recorded properly or misappropriated, laws may adversely change, insurers may not pay when expected, systems may fail or insurance may be inadequate.

Investment decisions by the Investment Manager or the managers of underlying funds, although taken carefully, are not always successful. Investing through an administration platform also brings some risks that the operator of the administration platform may not perform its obligations properly.

### Borrowing risk

This is the risk associated with borrowing (often called leveraging or gearing). Direct leverage refers to borrowing money. Any borrowing by the Fund would be very limited. Particularly, from time to time amounts may be borrowed on a short term basis to meet redemptions, distributions, or short term Fund obligations, but only if the borrowing is considered to be prudent and in the best interests of all investors. Such borrowing would only be from leading financial institutions. Security may be granted over Fund assets.

### Governance risk

The Investment Manager may take into account environmental, social and governance (ESG) issues in the management of the Fund with the intention of enhancing returns and/or managing risk. Be aware that the Investment Manager's policy does not take into account all labour standards, environmental, social and ethical considerations, and that any assessment of what is or is not such a factor and should or need not be taken into consideration is subjective. Remember that the Investment Manager's policy can change, and that investing having regard to such factors may not result in ESG outcomes improving or desired investment outcomes being achieved. Investments may form part of the portfolio even though they do not meet such standards.

### Information risk

We are committed to ensuring that your information is kept secure and protected from misuse and loss and from unauthorised access, modification and disclosure. We use the internet in operating the Fund and may store records in a cloud system. If stored overseas, different privacy and other standards may apply there.

The internet does not however always result in a secure information environment and although we take steps we consider reasonable to protect your information, we cannot absolutely guarantee its security.

### Risk measure

The Investment Manager considers that the "standard risk measure" for this Fund is a medium to high risk rating, which means that the estimated number of negative annual returns over any 20 year period is 3 to less than 4. On a scale of 1 to 7 where 7 is riskiest in this respect, the Fund is in category 5.

The standard risk measure is based on industry guidance to allow investors to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period. It is not a complete assessment of all forms of investment risk. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of fees and taxes on the likelihood of a negative return.

Investors should still ensure they are comfortable with the risks and potential losses associated with the Fund.

### Managing risk

As risk cannot be entirely avoided when investing, the Fund aims to identify and manage risk as far as is practicable. Whenever investments are made, the potential for returns in light of the likely risks involved are assessed.

Risk is considered throughout the investment process. As far as is practicable, risk is managed at the Fund level in selection of the underlying stocks.

However, many risks are difficult or impracticable to manage effectively and some risks are beyond our, the Investment Manager's, and any underlying fund manager's control altogether.

Remember, investing involves risk, and you can lose as well as make money. Neither returns nor the money you invest in the Fund is guaranteed.

## 5. How we invest your money

**Warning:** When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

### Investment objective

Insync sets itself the objective for this strategy to outperform the MSCI All Country World ex-Australia Net Total Return Index in Australian dollars over rolling 5 year periods.

The performance targets are not intended to be a forecast. They are only an indication of what the investment strategy aims to achieve. The Fund may not achieve these investment objectives. Returns are not guaranteed. Your adviser can also provide information. Remember that quoted unit prices will be historical and not necessarily the price you will receive when applying or withdrawing.

**Benchmark**

MSCI All Country World ex-Australia Net Total Return Index in Australian Dollars

**Minimum suggested time frame**

An investment in the Fund should be regarded as long term, and investors should look to invest for 5 years or longer.

**Risk level**

Medium to high risk

**Investor suitability**

Those investors with a medium to high risk tolerance seeking capital growth and some income from a portfolio of carefully selected companies from around the world.

**Investment style and approach**

Insync adopts a two-step process to construct the portfolio for this strategy.

**Step one**

Insync employs efficient screens to narrow the universe of listed global companies to around 150 companies that it believes are superior, companies which have the potential to consistently grow their profits and dividends or buyback shares. These screens are as follows:

Profitability	High return on capital
Balance sheet	Strong balance sheet – flexibility to take advantage of growth opportunities
Shareholder friendly	Owner manager approach – growth in dividends and/or buybacks
Valuation	Trading at a discount to Insync’s assessed valuation

Concurrently with the screening process, Insync focuses on global megatrends to identify companies that will significantly benefit from capturing structural growth which looks beyond the business cycle to exploit forward looking opportunities.

A global megatrend can be defined as a gathering wave of change that is nearly impossible to reverse, significantly influences the future, possesses an aura of inevitability and has a far and wide-reaching impact on society. Megatrends result from a convergence of different underlying trends including innovation, technology, natural events, politics, demographics, social attitudes and lifestyles.

**Step two**

Insync then takes this select list of highly profitable, shareholder friendly companies and conducts due diligence on the most attractive opportunities. Preference is given to companies that have adopted a balanced approach to retaining earnings to grow profitability and paying out earnings, either through growing dividends and/or share buybacks.

Assessing the structure of the industry in which each company operates as well as the trend of a company’s return on its investment are important. Insync believes this research will identify those businesses which are able to consistently compound shareholder wealth at superior rates of return over the long term.

**Portfolio structure**

The outcome of the two-step investment process is, in Insync’s view, a portfolio consisting of superior companies, with good long term of growth potential that have many of the following attributes:

- high return on invested capital,
- major beneficiary of a global megatrend,
- difficult-to-duplicate assets that protect the durability of the franchise,
- asset light businesses,
- recurring, annuity type revenues,
- high gross margins,
- resilient and proven business model,
- strong balance sheet and free cash flow generation, and

- owner manager approach where management retain a portion of free cash flow to grow the company’s future profitability, where the returns on capital are strong, and payment of dividends or share buybacks is evident.

Insync will carefully construct a concentrated portfolio of the best ideas from the select group of superior companies. Investment weightings will vary significantly from benchmarks and, as such, the Fund’s performance will differ from indices.

The number of companies held in the portfolio will generally be between 20 and 40.

**Asset allocation**

The principal investments will be in shares of companies listed on international stock exchanges (including the US, Europe and Asia). The Fund may also hold cash, currency contracts, American Depository Receipts and Global Depository Receipts. The Fund may also invest in various types of international pooled vehicles. Financial instruments such as forward contracts or listed options can be used to manage exchange rate risk.

At times, Insync may consider it prudent to hold higher levels of cash if valuations are full and it is difficult to find attractive investment opportunities.

**Changing the investment strategy**

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

**Labour, environmental, social and ethical considerations**

Insync considers that environment, social and governance (ESG) issues can affect investment performance.

Accordingly, Insync may take into account ESG issues as part of its investment process, including with the goal of helping enhancing returns and managing risk.

No formal guidelines are used, nor is any formal weighting given to the ESG issues in portfolio construction. Rather the Investment Manager takes a broad, implicit approach when carrying out this subjective assessment.

The types of ESG that may be taken into account include:

- environmental: weather, pollution and environmental disruption, sustainability, and associated reputational and brand risks,
- social: political stability, human rights issues, privacy and cyber-security, impact on local communities, health and safety, and associated reputational and brand risks, and
- governance: board composition, risk management track- record, legal and compliance track-record, history of prosecutions, management remuneration, distribution of equity, and associated reputational and brand risks.

**Fund performance**

Up to date information on the performance of the Fund can be obtained from [www.eqt.com.au/insto](http://www.eqt.com.au/insto). A free of charge paper copy of the information will also be available on request.

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

### Additional Explanation of Fees and Costs

#### Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.98% p.a. of the NAV of the Class is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Class may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at [www.eqt.com.au/insto](http://www.eqt.com.au/insto) where they are not otherwise required to be disclosed to investors under law.

## Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Class will incur when buying or selling assets of the Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Class and are not separately charged to the investor. The Buy Spread is paid into the Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.20% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of \$10,000 is \$20 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and [www.insyncfm.com.au](http://www.insyncfm.com.au) will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Class are 0.22% p.a. of the NAV of the Class, which is based on the relevant costs incurred during the financial year ended 30 June 2020.

However, actual transaction costs for future years may differ.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 4.00% of the GAV of the Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

### Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

### Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on +61 2 8094 1255 for further information.

## Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Insync Global Quality Equity Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
<b>Plus</b> Management fees and costs	0.98% p.a.	<b>And</b> , for every \$50,000 you have in the Insync Global Quality Equity Fund you will be charged or have deducted from your investment \$490 each year
<b>Plus</b> Performance fees	Not applicable	<b>And</b> , you will be charged or have deducted from your investment \$0 in performance fees each year
<b>Plus</b> Transaction costs	0.00% p.a.	<b>And</b> , you will be charged or have deducted from your investment \$0 in transaction costs
<b>Equals</b> Cost of Insync Global Quality Equity Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$490* <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

### Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 7. How managed investment schemes are taxed

**Warning:** Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

### Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Insync Global Quality Equity Fund  
Mainstream Fund Services Pty Ltd  
GPO Box 4968  
Sydney NSW 2001

Alternatively complete the online application available at [www.insyncfm.com.au](http://www.insyncfm.com.au).

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

### Cooling off period

If you are a retail client (as defined in the Corporations Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A retail client may exercise this right by notifying Equity Trustees in writing. A retail client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a retail client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as an investor in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in a fund by the IDPS. The right to cool off in relation to a fund are not directly available to an indirect investor. This is because an Indirect Investor does not acquire the rights of an investor in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to a fund and any rights an indirect investor may have in this regard.

### Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Does the beneficial owner named above hold a prominent public position or function in a government body (local, state, territory, national or foreign) or in an international organisation or are you an immediate family member or a business associate of such a person?

☐ No ☐ Yes, please give details:

**If there are more than 2 beneficial owners or controlling persons, please copy and complete this page for the other persons or alternatively, provide the additional details as an attachment.**

## **SECTION 5.1 – CUSTODIAN ATTESTATION: CHAPTER 4, PARTS 4.4.18 AND 4.4.19 OF THE AML/CTF RULES**

**If you are a Company completing this Application Form on behalf of an individual, another company, a trust or other entity, in a Custodial capacity, please complete this section.**

In accordance with Chapter 4, part 4.4.19 (1)(a) to (d) of the AML/CTF Rules, does the Custodian meet the definition (see 'Section 10 – Glossary') of a Custodian?

☐ No ☐ Yes

In accordance with Chapter 4, part 4.4.19 (e) of the AML/CTF Rules, do you, in your capacity as Custodian attest that prior to requesting this designated service from Equity Trustees, it has carried out and will continue to carry out, all applicable customer identification procedures on the underlying account holder named or to be named in the Fund's register, including conducting ongoing customer due diligence requirements in accordance with Chapter 15 of the AML/CTF Rules?

☐ No ☐ Yes

If you answered YES to all of the above questions, then Equity Trustees is able to apply the Chapter 4, part 4.4 Custodian rules to this account and will rely upon the customer due diligence conducted by the Custodian on the underlying account holder named or to be named in the Fund's register.

If requested to do so at any time after the provision of this designated service, the Custodian agrees to honour any reasonable request made by Equity Trustees for information or evidence about the underlying account holder in order to allow Equity Trustees to meet its obligations under the AML/CTF Act.

☐ No ☐ Yes

Excepting the below circumstances where the custodian answered NO or did not complete any of the above questions, no other information about the underlying account holder is required to be collected. However, further information about you as the Custodian and as a company is required to be collected and verified as required by the AML/CTF rules. Please complete the rest of this form for the Custodian.

### **Excepting circumstances:**

If you answered NO or did not complete any of the above questions, then we are unable to apply the Chapter 4, part 4.4 Custodian rules to this application. We are therefore obligated to conduct full Know Your Client procedures on the underlying account holder named or to be named in the Fund's register including any named nominee, as well as the trustees, beneficial owners and controlling persons of the underlying named account in addition to the Custodian. Therefore, please complete the relevant forms and provide identity documents for all parties connected to this account.

## SECTION 8 – DECLARATIONS – ALL INVESTORS MUST COMPLETE

In most cases the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act (FATCA) and the Common Reporting Standard (CRS). However, in some instances the Responsible Entity may contact you to request further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

### When you complete this Application Form you make the following declarations:

- I/We have received the PDS/IM and made this application in Australia (and/or New Zealand for those offers made in New Zealand).
- I/We have read the PDS/IM to which this Application Form applies and agree to be bound by the terms and conditions of the PDS/IM and the Constitution of the relevant Fund/Trust in which I/we have chosen to invest.
- I/we have carefully considered the features of Fund/Trust as described in the PDS (including its investment objectives, minimum suggested investment timeframe, risk level, withdrawal arrangements and investor suitability) and, after obtaining any financial and/or tax advice that I/we deemed appropriate, am/are satisfied that my/our proposed investment in the Fund/Trust is consistent with my/our investment objectives, financial circumstances and needs.\*
- I/We have considered our personal circumstances and, where appropriate, obtained investment and/or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS/IM.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Fund/Trust in which I/We have chosen to invest.
- I/We acknowledge and agree that Equity Trustees has outlined in the PDS/IM provided to me/us how and where I/we can obtain a copy of the Equity Trustees Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to external third parties including but not limited to fund administrators, fund investment manager(s) and related bodies corporate who are located outside Australia for the purpose of administering the products and services for which I/we have engaged the services of Equity Trustees or its related bodies corporate and to foreign government agencies for reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS/IM information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees does not guarantee the repayment of capital or the performance of the Fund/Trust or any particular rate of return from the Fund/Trust.
- I/We acknowledge that an investment in the Fund/Trust is not a deposit with or liability of Equity Trustees and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees is not responsible for the delays in receipt of monies caused by the postal service or the investor's bank.
- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives, agents and/or financial advisers on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees acting on the instructions of my/our authorised representatives, agents and/or financial advisers.
- If this is a joint application each of us agrees that our investment is held as joint tenants.
- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
  - I/we are ineligible to hold units in a Fund/Trust or have provided misleading information in my/our Application Form; or
  - I/we owe any amounts to Equity Trustees, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Fund/Trust.
- **For Wholesale Clients\*** – I/We acknowledge that I am/we are a Wholesale Client (as defined in Section 761G of the Corporations Act 2001 (Cth)) and are therefore eligible to hold units in the Fund/Trust.
- **For New Zealand applicants\*** – I/we have read the terms of the offer relating to New Zealand investors, including the New Zealand warning statement.
- **For New Zealand Wholesale Investors\*** – I/We acknowledge and agree that:
  - I/We have read the “New Zealand Wholesale Investor Fact Sheet” and PDS/IM or “New Zealand Investors: Selling Restriction” for the Fund/Trust;
  - I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Fund/Trust; and
  - I/We have not:

- Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund/Trust;
  - Granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Fund/Trust; and
  - Distributed and will not distribute, directly or indirectly, the PDS/IM or any other offering materials or advertisement in relation to any offer of units in the Fund/Trust, in each case in New Zealand, other than to a person who is a Wholesale Investor; and
- I/We will notify Equity Trustees if I/we cease to be a Wholesale Investor; and
  - I/We have separately provided a signed Wholesale Investor Certification located at the end of this Application Form.

All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

\* Disregard if not applicable.

**\*Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
