Issue Date 23 July 2021

About this PDS

This Product Disclosure Statement (“PDS”) has been prepared and issued by Equity Trustees Limited (“Equity Trustees”, “we” or “Responsible Entity”) and is a summary of the significant information relating to an investment in the Claremont Global Fund (hedged) (the “Fund”). It contains a number of references to important information (including a glossary of terms), contained in the Claremont Global Reference Guide (“Reference Guide”), each of which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to persons receiving this PDS (electronically or otherwise) in Australia.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended (“US Securities Act”). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees’ discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Claremont Funds Management Pty Ltd ("Claremont Funds Management") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Claremont Funds Management Pty Ltd

Claremont Funds Management, a member of E&P Financial Group Limited, is the investment manager of the Fund. Claremont Funds Management has an investment team of five investment professionals who, as at 31 December 2020, collectively managed over \$1 billion of funds.

The Currency Manager

Tactical Global Management Limited (TGM)

Founded in 1997, Tactical Global Management (TGM) provides tailored investment solutions for institutional clients globally including pension funds, endowments, charities, banks, insurance companies, and other fund Managers, with over \$25 billion under overlay management. TGM's tailored investment solutions include rebalancing, equitization, and currency hedging overlays, systematic equity, bond and currency alpha strategies, a low volatility equities strategy and a sustainable global equities strategy. TGM is also supporting and promoting sustainable impact investing opportunities in both Australia and developing countries.

2. How the Claremont Global Fund (hedged) works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$20,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services
Client Services Registry Team,
GPO Box 4968,
Sydney, NSW, 2001

Please note that cash cannot be accepted.

If applying via mFund you will need to provide the application money directly to your licensed broker.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.10%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$1,000.

Switching Between Funds

As your investment needs change, you can simply switch all or part of your investment to another fund managed by Claremont Funds Management (subject to a minimum switch amount of \$1,000 and a minimum balance of \$20,000 in each fund). A switch is a withdrawal from one fund and an application into another. As the withdrawal is a disposal of units, it may have tax implications. If you do not wish to complete a new application form to switch your investment between funds, you may choose the switch election in your initial Application Form.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income semi-annually at the end of June and December, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services
Client Services Registry Team,
GPO Box 4968,
Sydney, NSW, 2001

Or sending it by fax to +61 2 9251 3525

Or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker.

The minimum withdrawal amount is \$1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.

Equity Trustees will generally allow an investor to access their investment within 21 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.10%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$20,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

Further reading

You should read the important information in the Reference Guide about:

- Application cut-off times;
- Application terms;
- Authorised signatories;
- Reports;
- Withdrawal cut-off times;
- Withdrawal terms; and
- Withdrawal restrictions,

under the "Investing in the Claremont Global Funds", "Managing your investment" and "Withdrawing your investment" sections before making a decision. Go to the Reference Guide which is available at www.claremontglobal.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

3. Benefits of investing in the Claremont Global Fund (hedged)

The Fund is actively managed in accordance with Claremont Funds Management's investment philosophy as outlined in Section 5. The Fund will invest in equity securities listed on financial markets outside Australia.

Investing in the Fund provides clients with the following significant features and benefits:

- Access to Claremont Funds Management's investment management expertise in relation to international equities;
- Exposure to a portfolio of high quality global equity securities (excluding Australia);
- Access to investment opportunities in offshore markets Claremont Funds Management considers attractive;
- The foreign currency exposure of the Fund will be hedged back to Australian dollars.
- Prudent risk management;
- Access to investment opportunities and diversification through pooling of assets that may not be available to individual investors; and
- Potential for diversification when employed in conjunction with other asset classes and investment styles.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Security Specific Risk

The risk associated with an individual asset. For example, the value of securities can be affected by events that affect the business of the issuer of the security.

Derivative Risk

The value of a Derivative, such as an option, is derived from the value of an underlying asset and can be highly volatile. Changes in the value of Derivatives may occur due to a range of factors that include rises or falls in the value of the Derivatives in line with movements in the value of the underlying asset, potential liquidity of the Derivative and counterparty credit risk. Losses from Derivative transactions can be substantial and can exceed the original amount invested.

Counterparty Risk

The Fund may enter into Derivative contracts with various counterparties such as clearing houses or various commercial or investment banks and may be reliant on these counterparties fulfilling their contractual arrangements. A failure of a counterparty to fulfil its obligations may cause the Fund substantial loss.

Currency Risk

Although the Fund's foreign currency exposure is hedged, the hedge may not provide complete protection from adverse currency movements. Currency markets can be extremely volatile and are subject to a range of unpredictable forces.

Market Risk

The risk that the market price of an asset will fluctuate as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events and environmental and technological issues. This risk may have different impacts on each type of asset, investment style and investor. The Fund is also subject to the risk of failure of any of the financial markets on which the underlying assets are traded or of the clearing house.

Investment Selection Risk

The Investment Manager may make investment decisions that result in low returns or loss of capital invested. This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

Non-Diversification Risk

Focusing investments in a small number of securities issuers, industries or countries increases risk. Funds that invest in a relatively small number of securities issuers are more susceptible to risks associated with a single economic, political or regulatory occurrence than more diversified funds might be. Some of those securities issuers also may present substantial credit or other risks. Claremont Funds Management seeks to mitigate this risk through prudent and conservative security selection, as described in Section 5.

Key Personnel Risk

Claremont Funds Management is dependent to some extent upon the expertise of its management team. Consequently, the Fund's performance could be adversely affected if key members of the management team do not continue to provide their services to Claremont Funds Management.

Fund Risk

Risks particular to the Fund include the possibility that the Fund could be terminated, the fees and expenses could increase or Equity Trustees could exercise their right to compulsorily redeem an investor's units in the Fund. Equity Trustees could be replaced as Responsible Entity of the Fund, and/or Claremont Funds Management could be replaced as investment manager. There is also a risk that investing in the Fund may give a less favourable result than investing directly because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors in the Fund. The Fund may be more concentrated than other similar funds. These risks are managed by monitoring the Fund and acting in the best interests of the investor.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Multiple unit class risk

The Fund offers separate classes of units for investment. The classes are not separate legal entities and the assets of each class will not be segregated. All of the assets of the Fund are available to meet all of its liabilities, regardless of the class to which such assets or liabilities are attributable. In practice, cross-class liability will usually only arise where any separate class becomes insolvent and is unable to meet all of its liabilities. In this case, all of the assets of the Fund attributable to other separate classes may be applied to cover the liabilities of the insolvent classes. If losses or liabilities are sustained by a class in excess of the assets attributable to such class, such excess may be apportioned to the other classes.

5. How we invest your money

Claremont Funds Management's Investment Philosophy

Claremont Funds Management's aim is for the Fund to invest in businesses that Claremont Funds Management consider satisfy the following four criteria:

- Business quality – businesses with durable competitive advantages and whose intrinsic value is rising over time (which is achieved by earning returns on invested capital well above their cost of capital on a sustainable basis).
- Balance sheet quality – businesses with low levels of financial risk.
- Management quality – businesses whose management seeks to allocate capital for the benefit of shareholders and whose emphasis is on small, accretive acquisitions and share buybacks over large deals where value destruction is common.
- Attractive valuation – a valuation margin of safety is integral to preserving capital as well as achieving attractive returns.

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund's investment objective is to provide investors with an attractive risk-adjusted return over a full market cycle (which is defined as a rolling 5-7 year period) hedged for foreign currency exposure. The Investment Manager also aims to generate a return in excess of the Benchmark over this period.

Benchmark

MSCI All Countries World Accumulation Index ex-Australia (A\$) (hedged).

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is 5 to 7 years.

Risk level

High.

There is a high level risk of loss of investment over the suggested investment horizon.

Investor suitability

The Fund may be suitable for investors seeking to have an exposure to international equity markets outside Australia.

Investment style and approach

The Fund will invest in equity securities listed on financial markets located outside of Australia. The Fund will also invest in Derivatives, to the extent necessary to hedge the Fund's foreign currency exposure. The Fund will hold between 10 and 15 listed securities diversified across countries and industries. The listed securities may be chosen from stocks included in the Benchmark but may also include stocks not included in the Benchmark.

The cash holding will rise and fall given the attractiveness of individual stocks based on the Investment Manager's selection criteria. Cash will generally be held in at call Australian bank deposits denominated in foreign currencies and converted back to Australian dollars when required. Some cash may be held by the Investment Manager, in relation to the Fund, for liquidity purposes and the foreign currency hedging.

The foreign currency exposure of the Fund will be hedged back to Australian dollars.

Asset allocation

The Fund investments are subject to the following constraints/restrictions:

- Cash weighting – maximum 10% of the gross asset value of the Fund.
- Single stock weighting – maximum 10% of the gross asset value of the Fund.

The Fund will only invest in Derivatives for currency hedging purposes. Currency hedging is subject to a minimum of 90% of the gross asset value of the Fund. Short selling of equity securities or equity indexes is not permitted.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Fund's philosophy is that the best outcomes for investors can be achieved through mitigation and management of environmental, social and corporate governance (ESG) risk, through detailed analysis and corporate engagement, rather than simply blanket screening of certain classes of investments. Where practical, our preference is to work with organisations to address fundamental ESG related issues to improve underlying performance, and report openly on the process and outcomes achieved.

An exception to this approach will occur in certain circumstances where a company is engaged in the production of goods that are directly harmful to human life, and that product – when used in accordance with recommended operating procedures – has either a high likelihood of harming others, or is in direct contravention of widely accepted international agreements. For the avoidance of doubt this includes:

1. Companies engaged predominately in the growing of tobacco or production of tobacco products
2. Companies engaged predominately in the production of controversial weapons (limited to those meeting the below definitions):
 - *Anti-personnel mines*: Those banned by the Ottawa Convention (1999)
 - *Biological and chemical weapons*: Weapons outlawed by the Biological and Toxin Weapons Convention (1972) and the Chemical Weapons Convention (1993)
 - *Cluster Munitions*: As defined by the Convention on Cluster Munitions (Oslo Convention) (2008) which prohibits the use, production, stockpiling and transfer of cluster munitions

Fund performance

Up to date information on the performance of the Fund will be available online at www.claremontglobal.com.au or by calling Claremont Funds Management. Past performance is not necessarily a guide to future performance.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Fees and Costs Summary

Claremont Global Fund (hedged)		
Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs¹		
<i>Management fees and costs</i> The fees and costs for managing your investment ²	1.25% of the NAV of the Fund	The management fees component of management fees and costs are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. Otherwise, the fees and costs are variable and deducted and reflected in the unit price of the Fund as they are incurred.
<i>Performance fees</i> Amounts deducted from your investment in relation to the performance of the product	Not applicable	Not applicable
<i>Transaction costs</i> The costs incurred by the scheme when buying or selling assets	0.01% of the NAV of the Fund	Transaction costs are variable and deducted from the Fund as they are incurred and reflected in the unit price. They are disclosed net of amounts recovered by the buy-sell spread.

Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)

Claremont Global Fund (hedged)

Type of fee or cost	Amount	How and when paid
<i>Establishment fee</i> The fee to open your investment	Not applicable	Not applicable
<i>Contribution fee</i> The fee on each amount contributed to your investment	Not applicable	Not applicable
<i>Buy-sell spread</i> An amount deducted from your investment representing costs incurred in transactions by the scheme	0.10% upon entry and 0.10% upon exit	These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption.
<i>Withdrawal fee</i> The fee on each amount you take out of your investment	Not applicable	Not applicable
<i>Exit fee</i> The fee to close your investment	Not applicable	Not applicable
<i>Switching fee</i> The fee for changing investment options	Not applicable	Not applicable

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how the relevant fees and costs are calculated.

² The management fee component of management fees and costs can be negotiated. See "Differential fees" in the "Additional Explanation of Fees and Costs" below.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.25% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy (if any). The indirect costs and other expenses component are variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or the Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.10% upon entry and 0.10% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$20 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.claremontglobal.com.au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.12% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2020.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +61 3 9411 4077 for further information.

mFund

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Claremont Global Fund - Hedged		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.25% p.a.	And , for every \$50,000 you have in the Claremont Global Fund - Hedged you will be charged or have deducted from your investment \$625 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.01% p.a.	And , you will be charged or have deducted from your investment \$5 in transaction costs
Equals Cost of Claremont Global Fund - Hedged		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$630* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the “Fees and other costs” section before making a decision. Go to the Reference Guide which is available at www.claremontglobal.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.claremontglobal.com.au or www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Mainstream Fund Services
Client Services Registry Team,
GPO Box 4968,
Sydney, NSW, 2001

If applying via mFund you will need to provide the application money directly to your licensed broker.

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited
GPO Box 2307, Melbourne VIC 3001
Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint within 1 Business Day or as soon as possible after receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 30 calendar days after receiving the complaint.

If you are not satisfied with our response to your complaint, you may be able to lodge a complaint with the Australian Financial Complaints Authority ("AFCA").

Contact details are:
Online: www.afca.org.au
Phone: 1800 931 678
Email: info@afca.org.au
Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the investment manager of the Fund; and

- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.

mFund Settlement Service

You must use a mFund accredited and licensed broker to facilitate your transactions on mFund. Your chosen broker may charge you additional fees which are not outlined in the Fees and Costs section of this PDS.
